Counterbalanced Electric Stacker

Model: CPD15W

Advantages:

STRUCTURAL
- Long handle structure makes it steering light and flexible.
- Two lifting cylinders placed on outer sides of the mast.
- Germany imported special steel mast.
- Vertical driving wheel, driving efficiency, easy installation & maintenance.
- Compact structure and low gravity.

SAFETY AND EFFICIENCY
- AC frequency conversion traction motor: compact structure, good performance, regenerative braking and easy maintenance.
- Tilting system forks easy for loading and stacking.
- High Storage battery ensures strong and long-lasting power.
- Motor with RID, prolonging the battery in use time.
- The braking system combines magnetic brake and regenerative break, greatly prolongs the using life of friction plate.
- With emergency stop switch and electricity lock button, and multi-valve controlling levers, ergonomic for operation.
- The adjustable regulator valve can adjust the lowering speed of the masts.

EASY MAINTENANCE
- Magnet suction battery cover, easy for installation and maintenance.
- AC controlling system, low noise, less maintenance.
